Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

THE PERFECTION OF PREPARED COCOA.

MARAVILLA COCOA.
SOLE PROPRIETORS,
TAYLOR BROTHERS,
LONDON.

THE COCOA (OR CACAO) OF MARAVILLA is the true THEOBROMA LINNÆUS. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homœopaths and cocoa-drinkers generally, but many who had hitherto not found any preparat on to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"AN UNPRECEDENTED SUCCESS."
See following Extract from the Globe of May 14, 1868.

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.

Adapting their perfect system of preparation to this the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and Invalids we could not recommend a more agreeable or valuable beverage."

Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original HOMŒPATHIC COCOA and SOLUBLE CHOCOLATE.

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

If sufferers from the racking pains of rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

his class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight sqeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for ears from Piles and similar complaints when they might se Holloway's Ointment with instant relief, and effect heir own cure without the annoyance of explaining their ·imer to anyone

Disorders of the Kidneys, Stone and Grave'

Are immediately relieved and ultimately cured if the ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will radually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a to rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	elephantiasis,	Skin Disease

FOR INFLAMMATORY AND CHRONIC RHEUMATISM AND GOUT, DYSPEPSIA or INDIGESTION, BILIOUS REMITTENT and INTERMITTENT FEVERS, DISEASES of the BLOOD, LIVER, KIDNEYS and BLADDER, these BITTERS have been most successful. Such Diseases are caused by VITIATED BLOOD, which is generally produced by derangement of the digestive organs.

Cleanse the vitiated Blood, whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy and all will be well.

CHING FUN—A CARD—EDITOR BRITISH COLONIST:—Through the medium of your paper I want to state the very great good that has been done me by Dr Ching Fun of this city, next door to Kwong, Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr Ching Fun, and after five months' treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief. Friday Morning Nov. 26, 1869.

Fatal Procrastination.

It is greatly to be feared that there is a disposition in this community to enact the part of the foolish virgins, in so far as a water supply is concerned. It is not many weeks since a sort of panic prevailed, consequent upon the discovery that the source of ordinary supply had given out, and that the entire community depended upon foul stuff, obtained from stagnant and festering pits. Fortunately for the people the rainy season was close at hand, and the supply has since been abundant. But do people forget that summer will come again, and that the supply will once more fail? It would really appear as though they did, else they would not allow so much precious time to slip away unimproved. It must be remembered that to introduce a fresh supply of water is not the work of a few days, or weeks, or even months. It is an undertaking which will involve much capital and occupy many months; yet the first step has not been taken; the necessary preliminary survey has not been made, and it would not appear improbable that the next session of the Legislature will find this community in the same state of unreadiness in which the last session left it, and thus another year will be tided over, and another dry season will overtake us in the same conditon of utter helplessness. We intreat the people to look this question square in the face. This year was remarkable for freedom from epidemic. Next year may be the reverse. This year the failure of the water supply only extended over a couple of weeks. Next year it will be longer—may be double. This year we enjoyed remarkable immunity from fires during the dry season. Next year it may be different. But, putting all may-bes on one side, the supply will, in the very nature of things, be more defective next year than it has been in the past. It has been gradually failing year by year. The 'Springs' have failed, and Harris' Pond, at no time yielding good water, is rapidly giving out. Yet it is in this condition that we are listlessly drifting into another year, with the absolute certainty of being called upon to meet the terrible realities of another and more serious water famine. It is difficult to account for such infatuation. One would think that the first law of nature itself would render such fatal indifference impossible—that considerations of health and life would supply a sufficient motive for the most prompt and energetic action in such a matter as this. It has been said that some of our principal property-owners are averse to the scheme for a fresh supply of water, in view of the probable heavy taxation it will involve. We are reluctant to believe that proprietors of real estate can possibly be so stone-blind, so penny-wise and pound-foolish as to take any such view of the question. What is it that imparts value to town lots but population? How can any rational person expect the presence of population where the conditions essential to its wellbeing, nay, to very existence are withheld? The owners of real estate in Victoria should, of all other classes, be most anxious to have an abundant supply of good, wholesome water brought into the city. With it this would be one of the most healthy and charming places on the coast, and could not fail to become large and populous, and, consequently, real estate would become valuable. Without it the present population cannot possibly remain, the city cannot even retain its present status, and, consequently, real estate must become comparatively valueless. There could be no greater insanity than to imagine that we can build up a large community without a supply of wholesome water. But there would not appear to be any necessity for a water tax falling with undue weight upon real estate. The aim should be to spread the tax over the largest possible surface, in order that many hands might make light work; yet these are matters of detail with which we do not care to cumber the question now. A supply of wholesome water *must be had*, let the tax pinch where it may; and it appears to us that the duty of taking the initiative devolves upon the Municipal authorities. Assuredly it concerns them more to consider how the city shall be supplied with water than to be vexing themselves about deciding whether or not the 'poor widow's cow' shall be permitted to graze upon half-deserted streets.

In Business.—Here is a scene reported from the Paris Correctional Court:—

'Prisoner, what were you doing on the Boulevard?'

'I was walking there.'

'How! at two o'clock in the morning?'

'There is no article in the 'code' which says I may not walk on the Boulevard at two o'clock in the morning.'

'Where do you live?'

'I prefer not to answer that, on account of my creditors.'

'What have you to say in your defence?'

'That I have done nothing. If I have assassinated or robbed any one, let it be proved and let me be guillotined. Last night there were heaps of men walking. They were not arrested, because they had money. I, having no money, am a criminal. If I had had the means of passing the night at a restaurant nothing would be said to me. What harm if I choose to walk? Do they believe that I am wearing out the road? If so, let them condemn me for that. This is my defence.'

'One question more: What do you do for a living?'

'I sell second-hand tooth-picks!'

Sepoy Insincerity.—Colonel H—— commanded an irregular cavalry regiment in India. A *beau sabreur* and kindly gentleman, he had to all appearances made himself the idol of his men. His regiment was to him everything, and he not unnaturally believed that his devotion to his men was reciprocated. The mutiny of 1857 broke out, and public journals canvassed the possible faithfulness of the different Sepoy corps. One journal ventured to question the loyalty of the regiment commanded by Colonel H——, and immediately afterward inserted a letter from Colonel H——, in which that officer indignantly protested against the slander upon those men 'among whom he would trust his life.' When this letter appeared, the hand that wrote it was cold and lifeless—the writer had been murdered by those whose character it was one of his last and most welcome offices to defend.

The Prussian executioner will soon have to behead at Goerlitz a young girl of eighteen, who murdered her parents because they would not allow her to marry a man of her heart.

The whole of Eastern Kentucky is reported to be overrun with horse-thieves, whose operations are on such a bold and extensive scale that hardly any citizen dares attempt to own or keep a horse.

Requisition to F. J. Barnard, Esq.

TO FRANCIS JONES BARNARD, ESQ.,

Sir:—A vacancy in the representation of this district in the Legislative Council having been created by the resignation of Hon H Havelock, we, the undersigned electors, respectfully solicit you to accept the nomination, hereby pledging ourselves to employ every legitimate means for securing your election.

In soliciting you to again become the representative of this district, we are conscious that we are asking you to make considerable personal sacrifice, and to reverse the decision formed on a previous occasion when you retired from a position filled with so much credit to yourself and satisfaction to your constitutents, and firmly declined re-election; but knowing, as we do, the deep interest you have ever taken in the great question of the day (Confederation) and reposing unbounded confidence in your judgment and ability to render good service at this the most critical and important juncture in the history of the Colony, we venture to press the nomination upon your acceptance.

To F J. BARNARD, ESQ.,

Sir:—A vacancy in the Legislative Council of a representativeat the district of Yale having been created by the resignation of the Hon Henry Havelock, we, the undersigned electors, respectfully solicit you to accept the nomination, and hereby pledge ourselves to use all legitimate means to secure your election.

In thus soliciting you again to become the representative of this district, we are aware that we are asking you to make personal sacrifice. But from the satisfaction felt by your constituents on your return for the same position on a previous occasion, and knowing, as we do, the deep interest you have ever taken in the great question of Confederation, and having all confidence in your ability to render good service in the advancement of this great and good cause, we beg again to press the nomination upon your acceptance.

(REPLY.)

Gentlemen:—In accepting the nomination proposed by you as expressed in the requisition just handed to me, I have only to say that, should such nomination result in my election, I shall do my utmost to merit a continuance of your confidence. As regards the great question of the day, I would take this opportunity of declaring publicly that I am not in favor of Confederation unless it can be obtained on fair and equitable terms, and that I should prefer seeing the Colony remain as it is to going into the Union with any lower political status than that enjoyed by the other provinces.

I am, Gentlemen, your obedient servant,

Political.

To the Electors of District No. 2

Gentlemen:—By my address to you of the 17th inst., I solicited your votes for the coming election to represent your interest in the Legislature. But in order for a man to become an efficient legislator he must devote his time and energies to it, and upon consideration, I have made up my mind to withdraw from the contest for membership, for I feel that at present I could not devote my time to politics, and as for my energies I think that, in justice to myself and family, they ought to be concentrated on my farm.

But yet, gentlemen, I am desirous of seeing your interests and mine prosper, as I said in my address, of seeing the best man elected.

There are, as you are aware, Mr Lowe and Mr DeCosmos aspiring to the honor of representatives, the one espousing that which is contained in his address, the other advocating nothing at all further than what he states to the meetings that he calls at the different districts, an immediate Confederation with Canada, as appears by his resolution of March, 1867.

I have, therefore, much pleasure in resigning in favor of Mr. James Lowe.

MATTHIAS ROWLAND.

Burnside Farm, Nov 22, 1869. no23

To the Electors of District No. 2.

Gentlemen:—At the urgent request of a numerous and influential body of Electors I have been induced to ask your suffrages for the seat rendered vacant by the death of your late greatly esteemed representative.

In the present critical position of affairs, I consider it absolutely necessary for the future welfare of our Colony that we should not rush into Confederation with Canada, which it is the evident desire of the Home Government to force upon us, and which a small section of he politicians here are anxious to carry out at once.

I do not consider that the interests of the Agricultura community are likely to be improved by Confederation, unless a system of immigration to this Colony is made a condition. The longer Confederation is postponed the greater hope there is for us to obtain all the advantages which may be derived therefrom; and you will then have the opportunity of carefully considering your position before you finally commit yourselves to the irrevocable step; nor would I, under any circumstances, have Confederation without an Overland Railway, and regular Mail communication by ocean steamers.

Should you elect me all my energies shall be devoted to protect your interests.

There are several other topics which I shall be glad to touch upon, but I reserve them until I have the opportunity of meeting you personally. The question of Roads is, however, one I cannot overlook, as I consider that your welfare hinges on this subject, for without good and available means of communication it will be impossible for you to compete with our neighbors.

JAMES LOWE.

Victoria, 1st November, 1869.

NOTICE.

Vancouver Island, British Columbia.

BY AUTHORITY VESTED IN ME BY His Excellency the Governor of British Columbia, I hereby give notice that at noon on Monday, the 29th day of November inst., I shall attend at the District School House, Fort street, Victoria, to receive nominations for a member to represent District No. 2 in the Legislative Council of British Columbia.

And I do further give notice that in the event of a poll being demanded on behalf of any candidate, it will be taken on Thursday, the 2d December proximo, between the hours of 9 a.m. and 4 p.m., at the following places:

For Victoria District, at Victoria District School House, Fort street.

For North Saanich District, H. Wain's Hotel N Saanich

For South Saanich District, H. Simpson's Prairie Tavern, South Saanich.

WILLIAM CREEK.—The Dutch Bill company cleaned up 65 oz last week. The McLaren cleared up 26, 23 and 41 oz for the last three weeks. A few of the hydraulic companies are preparing to drift for the winter. In the lower part of the creek only one company, the Foster-Campbell, have been getting out pay since the freshets. Last week they washed up $400, one shift working. The Prairie Flower co's diggings, which generally paid a dividend of $100 per week, are improving in appearance. The Ballarat tunnel is closely approaching completion and a little gold is being obtained.

STOUT GULCH.—The Mucho Oro co washed up 42 oz for last week's work, and on Wednesday last 18 oz for three days. The Taffvale co washed up 88 oz for the week and 18 oz for the half-week. The Floyd co. were running a new car-drive. The Jenkins co. washed up 155 oz for the week. The Coombs co washed up 24 oz for the week, and 21 oz on Thursday.

CONKLIN GULCH.—The White Pine company washed up 43 oz for the week, and the Felz co 125 oz. On Wednesday last both these companies washed up about 18 oz.

DRAGON GULCH.—On Wednesday the Discovery co struck side rock in their tunnel and expect to get to bedrock under the channel in a few days. They have obtained prospects of $5 to the car.

NORTH FORK QUESNELLE.—It is reported that a little excitement occurred on Keithly creek and thereabouts last week. A few men have been working on a bench or bank two miles from the China ranch, on the Keithly creek side, and it leaked out that they were doing very well, whereupon a rush on a small scale took place.—*Sentinel.*

MR. DECOSMOS AND HIS PRINTING BILLS AGAIN.—In a long and rambling letter in last evening's paper Mr. Amor DeCosmos labors to make it appear that it is the proprietor of the COLONIST, and not the *Electors* of District No. 2, who complain that he (Mr DeCosmos) has refused to show proper respect by issuing an address. So far from the COLONIST having complained, Mr DeCosmos, in the humble apology published by him a few days ago, acknowledged that certain letters which had provoked his ire were not written by 'Mr Higgins or with his connivance.' Mr DeCosmos last evening says—'Mr Higgins might have sent a reporter to my meetings.' To do what, does the reader think? Why, to catch the golden words that might fall from the ex-honorable's lips!!! Had we wished to see the exhonorable gentleman cut a more ridiculous figure than he does, we should certainly have sent a 'sheil' to 'tak' notes.' Pity alone prevented us doing so; and a like feeling has prevented us throughout the present canvass from publishing a tithe of the volunteer reports of his extraordinary antics at Oaklands, Cowichan and Metchosin. The exhibit of figures we gave the other day, amply refutes the statement Mr DeCosmos has made in the Districts that last year the COLONIST charged him '$90 for his address,' and that his determination not to be again fleeced was the reason he does not now publish an address. We showed, conclusively, that he was charged but $20 for an address three times the length of the addresses for which his opponents were charged $45 each. This exhibit Mr DeCosmos finds he cannot shake; so not satisfied with having had his work done at half-price, he professes that 'only the other day Mr. Long, Mr. Higgins' ex-partner, expressed surprise that I had paid the last $30.' We have not seen Mr. Long since the letter of Mr DeCosmos appeared; but we venture to assert that Mr. Long never expressed anything of the kind to Mr. DeCosmos or any one else; because the charges against Mr. DeCosmos were made by *Mr. Long himself*, during the absence from the Colony of Mr. Higgins When Mr. Long withdrew from the COLONIST the account of $30 against Mr DeCosmos was turned over to Mr Higgins as 'good.' Five months afterwards, when it was found that Mr DeCosmos was attempting to evade payment of what he now terms a 'debt of honor,' Mr Long waited upon him with the present proprietor of the COLONIST and told him plainly that he 'owed the $30 and ought to pay it!' So much for the surprising amount of sympathy Mr DeCosmos has extracted from Mr. Long. One more point and we have done: Mr DeCosmos still harps on the 'extortionate' charges of the COLONIST as a reason why he will not publish an address. Very well; if the charges of the COLONIST are 'extortionate,' why does he not avail himself of the wideopen door of the *News?* Why does he not give his organ an opportunity to pipe a shrill note or two in support of the 'principles' which he professes actuate him, but which no one believes he possesses? Does the *News* sail in the same 'extortionate' boat with the COLONIST? or does Mr DeCosmos believe that the 'notes' of his 'organ' will not be accepted as a 'circulating medium?'

THE steamer Enterprise, on Wednesday night, brought down 50 passengers and upwards of $90,000 in gold dust—$42 000 of which were for the banks—and a Cariboo mail and express. There were also on board 21 head of cattle and 41 hogs, consigned to Stafford and Hickin and J. Heywood, and a quantity of furs for the H. B. Co. The Enterprise came down via Naniamo.

THE farm yield in the Thompson River Valley for the year is very great—larger than ever before. The valley is fully supplied with flour ground from its own wheat, and Big Bond and other mining camps also draw largely upon the valley for supplies. Mr. Fortune's grist mill at Tranquile River is running day and night.

NOT CREDITED.—The report that the bark Old Dominion had come to grief at Clallim Bay. The bark sailed from Sooke on Friday of last week. Since then there has been no severe weather.

THE YALE-LYTTON ELECTION.—Elsewhere will be found a requisition presented to F. J. Barnard, Esq., by the electors of the Yale-Lytton District, and his reply thereto. There are 139 signatures attached to the requisition, and in looking over the list we do not miss the name of a single person of any prominence in the District. In fact, the desire to be represented by Mr Barnard would appear to be as unanimous as it is earnest. It will be observed that the requisition is couched in language sufficiently emphatic and unequivocal, in so far as Confederation is concerned. There can be no mistaking the attitude of the electors of the Yale-Lytton District upon that subject. It will also be seen by the reply that Mr Barnard, although an ardent Confederationist, is thoroughly true to this Colony as regards 'terms.' Altogether, we congratulate the electors of the Yale-Lytton District upon having secured Mr Barnard as their Representative.

THE steamer Enterprise sailed yesterday for the wreck of the ship Cowper. The ship is not insured; the cargo is. Should the weather continue fine the ship may be saved.

The Enterprise returned at 6½ o'clock last evening. But little hope is entertained of saving the ship. No preparations for discharging the coal have been made.

NEW WESTMINSTER ITEMS.—The rifle contest between six of the N. W. Volunteers and six of the Boxer's officers, was won by the former by six points....The bark Mary Ellen has arrived at the B. C. & V. I. mills to load....There is a rumor that another lawsuit for the possession of the B. C. & V. I. mills is on the *tapis*.

MRS. PHELPS.—It is proposed by a number of influential citizens to request the talented Mrs. Fanny Morgan Phelps to give a reading and vocal entertainment some evening next week. The idea is an excellent one and ought to be worked out.

THE bark Glimpse will sail from San Francisco on the 14th December. Send your orders by telegraph in time to catch her.

THE BREAKS in the wagonroad have been repaired, and wagons and stages roll uninterruptedly over the road daily.

THE brig Coquette sailed yesterday for Moody's mills, to load for Valparaiso.

Letter from William Creek.

WILLIAM CREEK, CARIBOO, Nov, 9, 1869.

OBITUARY.

On Wednesday, Nov. 3d, after a short illness Dr John B Wilkinson. Deceased was the son of the Rev. Henry Wilkinson, of Eglington, Canada West, at one time President of the Wesleyan Conference in that country. He graduated with honors in Toronto, taking his degrees of B. A. and M. D. He afterwards attended one of the Schools of Medicine in New York. Soon after his arrival in this colony in 1859, he obtained the appointment of Assistant Surgeon to a portion of the corps of Sappers sent up to Harrison river. He did not enter upon the duty, resigning in favor of Dr Oliver. The excitement on Fraser river drew his attention and he came up the country and mined during the winter between Forts Hope and Yale. In the Spring of 1860 he came on to Rich Bar where, with others, he brought in a ditch of considerable length. In the fall of the year he went to Keithley creek where he practised his profession. He remained there and at the Forks of the Quesnelle until the opening of 1862, when he came on to William creek. He was interested in the Dead Broke claim on this creek, and was the chief promoter of a company engaged in prospecting for quartz who, in 1865, sunk two shafts each 40 feet deep, between Richfield and Grouse creek. The rock, which he assayed most carefully, gave very promising indications. His ability as a professional man was well appreciated, and his kindly disposition made him the reliever of suffering in the afflicted. Towards his professional brethren he was always courteous and affable. The community on the creek and its environs can testify to many acts of kindness received at his hands. His early death is a source of deep regret to his friends in this country, who have had the pleasure of his acquaintance for the past 10 years.

ITEMS.

The Victoria co on Lowhee creek paid $1 to the pan in the gravel; they have been running their tunnel through the Russel ground, and are now about to their own line. This ground, which was formerly called the Blue Jacket, has been prospected since '63.

DRAGON CREEK.—The Discovery co have struck bed rock and took out $150 to twelve carloads. They find pieces as high as $9; have prospects as high as $9 to the carload.

Some men washing headings on the Minnehaha claim, Musquito creek, picked up a piece weighing 5 oz

Some men came in from Harvey creek today and report 2 feet snow on Snowshoe.

Hugh Philips, who fell down the Willow co's shaft, on Musquito creek, is recovering slowly. He sustained some injury to the spine from the concussion.

KEITHLEY CREEK.—The No Sardine co have been taking out 9 oz to a set of timbers. They have considerable ground without running a tunnel, as two 7-inch pumps, throwing 45 inches of water per stroke, can not keep the diggings dry. The Grotto co will work all winter washing in their tunnel; they have a flume through and have made over expenses this season. The Stonewall co have made as high as 56oz to a shift. Two members of the Taffvale co, Stout gulch, leave by this express.

HARVEY CREEK.—Laidlaw intends to hydraulic his ground next summer.

The weather on William creek is delightful. We have about a foot of snow. The foundation for the Episcopalian Church is completed; it is to be built at the angle between the old trail and present wagonroad to Cameronton. The front will form the main street of Barkerville; when completed it and the Bank of British Columbia, in the Masonic building, will be the two finest edifices in Barkerville. The Masonic Hall does great credit to Messrs Bruce & Mann for the manner in which it is finished.

Nov. 11.—The Wisconsin co, on Anderson creek, have some good ground, which will pay well this winter.

A CHANCE FOR BARGAINS IN CLOTHING.—A. Gilmore, Yates street, near Government, has commenced to sell off his entire stock of readymade clothing AT COST, to close out that branch of his business, as he intends to confine his attention to MERCHANT TAILORING. Garments of every description made to order in the most fashionable styles at greatly reduced prices. *

The Cause of the Cotton Famine.

We find the following letter which purposes to furnish an explanation of the cause of the Lancashire cotton famine in the *Times* of a late date:—

To THE EDITOR—*Sir*—I perceive from your leader of to-day that you are still puzzled to explain the existing depression of the cotton trade of Lancashire. Let me state for your information one undoubted fact, which is the kernel of the whole question. There is in Lancashire about 35 per cent. more machinery than there is raw material to work upon. This has been substantially the case ever since the American war, and ought to solve the mystery of the badness of our cotton trade, even to the uninitiated.

You may ask, how came that excess of machinery into existence? The answer to this is also simple. For some years before the American war broke out the manufacturing industry of Lancashire was very prosperous; great fortunes were made, and most of the additional capital was invested on fresh looms and spindles. Just when the war broke out the building mania was in full play, and instead of being checked by this catastrophe it went on vigorously during nearly the whole period of the American war, and when the struggle came to an end it found Lancashire able to spin 60,000 large bales (420lb, each) of cotton per week, in place of 50,000 bales, in the year before the war.

You may then ask, why the madness of building cotton mills when the future supply of raw material was so uncertain? The explanation is that the people of Lancashire believed that the growth of cotton in the South under free labor would exceed what it was under slave labor, and that the close of the war would let loose an enormous supply of raw material. In this view they have been wholly mistaken. The supplies from American since the war, added to all the supplies from India and other countries drawn by famine prices, have been insufficient to feed even the amount of cotton machinery that existed before the war, and utterly insufficient for the augmented amount of machinery that now exists. As a consequence it is necessary to keep idle something like a fourth of the spindles now existing, but how is that stoppage to be brought about? People not in business might imagine it could be done by voluntary combination, but I assure such persons that such combination is impossible, and the only efficient cause to keep spindles from working is losing trade. Whenever there is the merest payment of profit to be got from working a spinner will keep all his machinery employed; to do otherwise is to let his capital be idle and deteriorate from rust, and nothing except severe loss in working will compel him to do this; but I have already shown that an inexorable necessity require this to be done, and the medium through which it is accomplished is continuous, and in the end ruinous, bad trade.

The spinners of Lancashire are like a beleaguered city, with provisions for only three-forths of the inhabitants; each person tries to get his full share of food, the price runs up to famine point, and finaly a large portion of the weaker and poorer inhabitants die of starvation. Just so it is happening in Lancashire. The spinners and manufacturers are gradually succumbing and those who were formerly strong are becoming weak. This process would eventually put the trade right if the mills of failed spinners were finally closed, but unfortunately they are often bought up at a nominal price and worked in competition with far costlier mills. Thus the excessive competition of machinery is not reduced as fast as it should be; still the tendency is slowly and painfully in that direction.

A far easier remedy for the ills of the trade would no doubt be an adequate supply of cotton—say one to one and a half millions of bales extra every year for the supply of Europe; but this I fear cannot be expected for a considerable time, though probably the coming year will witness a decided step in that direction.

Most of the other matters imported into this question are extraneous to it, or, at all events, of secondary moment. I allude to the alleged want of demand for our manufactures, and the competition of foreign countries, &c. Were the demand for manufactures doubled just now it would only double the price of cotton, and not add a jot to the profits of the manufacturer, and, as respects European competition, continental countries are suffering from the same depression as Lancashire, and from precisely the same cause. They have extended their spinning power as fast, or perhaps even faster, than we have, and they are now, like ourselves, starved for want of raw material.

I conclude with the remark that the resuscitation of the cotton trade must be gradual, and will arise from the combined action of two causes—first, the wearing out of the older portion of the cotton machinery of Europe; and, secondly, an increase in the growth of the raw material, which last process I fervently hope, and fully believe, will make steady progress.

I am, Sir, yours truly,
Liverpool, Sept. 27. SAMUEL SMITH.

Rheumatism, Dysentery, and Fever.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866.—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not 'supply a want and fill a place.'"

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

DR. J. COLLIS BROWNE'S CHLORODYNE—Extract from the General Board of Health, London, as to its efficacy in cholera. "So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz.: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the inventor was DELIBERATELY UNTRUE.

EXTRAORDINARY CURE OF A COUGH.

HER MAJESTY'S GUNBOAT "NETLEY," WICK, N.E. COAST OF SCOTLAND,

DEAR SIR, September 7th, 1868.

Having had a most distressing cough, which caused me many sleepless nights and restless days, I was recommended by His Lordship the Earl of Caithness to try your invaluable BALSAM OF ANISEED, and I can assure you with the first dose I found immediate relief, even without having to suspend my various duties; and the first small bottle completely cured me, therefore I have the greatest confidence in recommending it to the million

Most respectfully yours,

To MR POWELL. W. LINZELL, H.M.G.B. NETLEY.

POWELL'S BALSAM OF ANISEED,

For Coughs, Colds, Influenza, Shortness of Breath, Asthma Bronchitis, and for all affections of the Lungs, this old established remedy will be found invaluable.

The large sales and increased demand for this excellent and elegant preparation, which has followed its introduction into Australia, New Zealand and nearly all the British Colonies, has induced the Proprietor to still further extend the beneficial results of its use, and he begs to announce that he is now introducing its sale into Victoria, B. C., and has appointed Messrs Millard & Beedy Wholesale Agents, through whom Chemists and Storekeepers can obtain a supply.

THE PRICE IS WITHIN THE REACH OF ALL CLASSES.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energy are increased

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertical dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine

The Female's Best Friend

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known the world for the following diseases:

Ague	Female Irregularities	Scrofula King's Evil
Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux
Colics	Indigestion	Tumours
Constipation the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal Affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness, from whatever cause
Dysentery	Piles	
Erysipelas	Rheumatism	
&c.	Retention of Urine	&c.
